[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO AUGUST 3.

BY ATLANTIC CABLE.

### French Affairs.

PARIS, August 2.—It is rumored that De Remusat is to be appointed Minister of Foreign Affairs.

M. Roux, one of the leaders of the abortive Communist insurrection in Marseilles, has been condemned to death.

The only French prisoners now remaining in Germany are four officers and eight hundred privates in hospitals, and ten officers and seventy privates imprisoned for various offenses.

### WASHINGTON CITY.

#### The McGarrahan Claim.

WASHINGTON, August 2.—The Secretary of the Interior has decided in effect that a patent has never been issued to McGarrahan for the Panoche Grande quicksilver mine, and that the application of the New Idria Company for a patent for 480 acres was defective and could not be granted. It exceeded the amount that could be granted under the act of 1866, which limited the grant to any association of persons to not more than three thousand feet.

### EASTERN STATES.

#### The Disaster at New York.

NEW YORK, August 2.—The official inquiry under the direction of Addison Lowe, Supervising Steamboat Inspector at New York, into the condition of the boiler of the *Westfield*, is filed at last. The inspection commenced this forenoon in the office of the U. S. Inspector of Steamboats. The Board of Inquiry consists of Leonard A. Boono, local Inspector of the district, and Hill of Boston. The latter was summoned to replace Matthews, an inspector who is one of the witnesses. Capt. Belknap, Inspector General, was also present. The testimony of W. B. Vanderbilt, Government Inspector, showed there was a defect in the inside casing of the boiler, which evidently existed long before the explosion. This flaw could not have been detected by any inspector.

#### The Sunday Law in Cincinnati.

CINCINNATI, August 2.—A meeting of Germans, opposed to the present movement for the repeal of the Sunday law, was held to-night. The attendance was large and enthusiastic. Addresses were delivered in German by prominent German ministers and others, and resolutions were passed strongly opposing any repeal of the Sunday laws, which are declared wise and beneficial, and asserting that Germans who desired their abrogation do not represent the real German element; also declaring that they will not vote for any candidate who is in favor of the repeal of the Sunday laws.

#### A First Class Sensation.

COLUMBUS, O., August 2.—There is considerable excitement in London, Ohio, over the alleged discovery that Peter Bassbenger, a wealthy citizen of that neighborhood, who died some three years ago, was poisoned by his young wife, who afterward married a young man named Colburn, who was a New York newspaper reporter, now it is said a banker in New York. Bassbenger was said to be worth $750,000. He was 80 years old, while his wife was a young girl. The stomach of the deceased has been found full of arsenic and preliminary steps have been taken for the arrest of Mrs. Colburn. The theory of the prosecuting party is that some preparation used by ladies for the complexion was the article administered to Bassbenger. The friends and relatives of the widow of Bassbenger state that if there is any truth in the report of arsenic having been found in the exhumed remains, it has been placed there by relatives after death in order to injure her, and also that several circumstances point to a deep laid conspiracy to secure the property of the deceased by this and other fraudulent means.

### CURRENT NOTES.

A Bavarian paper brings the notice of the death of a citizen eighty-six years old, and adds: "He died from the effects of his wounds, received as a soldier in 1814, at the battle of Brienne."

The year's product of six mines at Virginia City, Nev., was $3,484,405. Of this sum nearly three millions and a half come from the Choller-Potosi. The Hale & Norcross yielded $536,000 dividends; the Choller-Potosi, $1,946,637; the Yellow Jacket, $323,000; the others nothing.

A California paper having accused the Memphis *Appeal* of telling a falsehood, the Louisville *Courier Journal* remarks: "It is comparatively safe, when there is half a continent between you and a Memphis editor, to tell him that he lies, but it is death under any other circumstances."

One of the many Mormon Young was recently spoken to by her father, Brigham, in reference to a proposal of marriage from a Salt Lake merchant. The young woman, with considerable spunk, replied: "I am willing to marry a dozen husbands, if you will let me select them myself, but I will never put up with a piece of a man."

The Count de Chambord, whose name is now prominent as a candidate indeed the only candidate, for the French throne, will be fifty-one years old in September. His father, the Duke de Berri, was assassinated six months before the son was born. He was baptized with great pomp in water brought from the Jordan by Chateaubriand, and used, in consequence, to be called "the child of the miracle." In 1846 he married the Princess Maria Theresa, eldest daughter of the Duke de Modena. They have no children.

### POLITICAL NOTES.

The Sacramento *Union* gives a careful and candid view of the political situation in California and thinks the indications warrant it in predicting at least 5,000 Republican majority.

The New York *Tribune* says that the revolt among the capitalists of Wall street against the thieves of the Tammany ring is general, and even the most conservative express their determination to pay no more taxes while the gang of thieves is in power.

The newspapers of San Francisco say that the Republican demonstration last Saturday evening was by far the largest and most enthusiastic outpouring of the people that has ever been witnessed in that city. Fifty-ten thousand persons listened to the speeches.

Democrats of Virginia are engaged in a high quarrel over State debts and political matters. The old line Whigs who form so large a section of the party in that State are mutinous under their present forced association with their political enemies and threaten a general bolt.

The Republican State Executive Committee of Ohio pays the postage on the documents it circulates. The Democratic Committee was accused of making liberal use of the franks of Congressmen. The charge was denied and proof demanded. The proof is furnished by the Columbus postmaster, who is also editor of the *State Journal*. He says: "In compliance with the demand of the *Ohio Statesman*, we feel obliged to say that, of the 2,872 franks which passed the Columbus post office yesterday, all except 68 were franks of the Hon. J. F. McKinney, Democratic Congressman from Ohio, now on a visit to the Democratic State Executive Committee. The 68 remaining were franks of the Columbus postmaster on official business."

Gen. Butler does not receive any very substantial support from the leading Boston papers in his aspirations to the gubernatorial chair. The Boston papers, however, never have been friendly to him. As a candidate for Congress from the Essex District they were never able to do him any injury. It remains to be seen what obstacles they may be able to interpose to his succession to the seat of Gov. Claflin.

### Complimentary to Governor Hoffman.

For the benefit of those of our readers who may not have access to the organs of Irish Democratic opinion in New York, we copy the following extracts to show how complimentary this portion of his constituents can be when they take the notion:

[From the Irish People.]

The blood curdles at the thought of such atrocity, and if such a thing as justice is to be found in this land of boasted liberty, that justice must now be sought for, to impeach John T. Hoffman, and try him for the willful murder of those whose deaths were caused by his action at New York on Wednesday, the 12th of July, 1871.

*We call upon the friends of the murdered citizens, by every duty which they owe to society and to themselves, to raise this issue at the proper tribunals of the country, and to cite Gov. Hoffman before a jury of his peers to answer to a charge of murder!*

Justice demands the trial and conviction of Hoffman and his militia, who have stained the character of this nation by their unpardonable madness.

[From the Irish Citizen.]

It is matter of regret that Mr. Hoffman has thus gone over to the Orangemen, because this bloody blunder wipes him out as a public man. Many had even good hope he might be our next President; but that is all: if his party now were mad enough to put him in nomination, he could never get one Irish Catholic vote, not one.

But Gov. Hoffman is answerable for the whole of it, and—we say it with pain—is guilty of every drop of blood shed that day.

[From the Irish World.]

Perhaps this Dutchman, Hoffman, felt in that hour the influence of common affinity, and deemed it obligatory on him to stand by his distant relatives—the Anglo-Orange Gothic who are ever true to the "glorious, pious and immortal memory" of William, the Dutch adventurer. And this man dares to rail his diabolical acts under cover of law and order. We charge that he has violated law and broken a special statute in this very instance. Out upon the wretch! Let his name stink forever in the nostrils of all the true and the good! Let the cry of the orphan, whose home he has left disconsolate, blast him! and let the hot tear of the widow, whose heart he has made sore, rot him in his pride of place and imperious despotism!

The greatest mistake made in the whole massacre business seems to be that Mayor Hall did not arrest John T. Hoffman for interfering with the peace of the city.

[From the Freeman's Journal.]

The "sober second thought" of the people lately so excited, will consign John T. Hoffman to the obscurity from which he has arisen by lucker manœuverings.

John T. Hoffman, Governor of the State by the leniency of Tammany Hall—was of nothing his long mustache at Newport, or elsewhere a *spoiled boby* of Tammany Hall.

These pork and whisky speculators—(produce merchants)—poor devils that no tailor would trust for a coat—*dictated* a rule of law for Gov. John T. Hoffman. Telegrams—costing only twenty-five cents currency—went to him in plenty. Poor Gov. John T. Hoffman was frightened at the array of men that had twenty-five cents to send telegrams to him.

### Churches in Portland.

The *Occident*, a weekly journal published in San Francisco, has a correspondent in Oregon, who in speaking of Portland in his letter of July 10, says:

The religious interests of the city look as favorable as the material. The Roman Catholics are not numerous, but they are sincere and devout in their way. The Episcopalians are considerable in numbers, making headway in their schools, under the superintendence of Bishop Morris; their religious services are stiff and formal, but it is to be presumed adapted to the minds and tastes of its members. The Methodists are numerous; they have a large church and, as usual, are zealous and active. The Congregationalists have just finished a new church. It is neat and comfortable; their number is considerable and the appearance of the congregation is favorable. The Baptists are not very strong here, but zealous in their way.

The Presbyterians are fairly represented in point of numbers. The church is one of considerable size, convenient and comfortable. Dr. Lindsley is the pastor. I have heard him preach and lecture a few times. He is evidently an accomplished scholar and a christian gentleman of no ordinary kind. He is a splendid preacher, and equally good as a popular lecturer. He is greatly admired by his own people and has the entire confidence of the public. His congregation is large and influential. His sermons and lectures attract a considerable number of the general public, and particularly young men. He seems to combine in himself a sufficient amount of orthodoxy with a large share of christian liberality. He knows how to cooperate with other christians without being incorporated with their peculiarities. He has the great joy of having a family that sympathize and co-operate with him in his works of faith and labors of love. It is a great point gained to have such an intelligent, accomplished and liberal minded christian minister as Dr. Lindsley is, at such a central and important position as Portland, that is destined to act an important part as a commercial city in the State of Oregon and on the Pacific coast.

### A Principle at Stake.

We have seen nothing better on a subject which has been much discussed lately than the following from Henry Ward Beecher in the *Christian Union*:

The Orange societies should parade next year without a banner less or an inscription rubbed out. They should not do it on an implied promise that, if protected once, they will then do it no more. They ought to move through the streets of New York until nobody thinks of molesting them. When that time comes it will be a matter of no public importance whether the annual procession is kept or not; but so long as a dog wags his tongue against an Orangeman's procession, or a bewildered magistrate forgets his duty toward them, the public good requires their continuance. If the Orangemen of New York fail next year to march through the streets, they will betray a sacred duty. By accident they have become the representatives of a principle which lies at the foundation of modern civilization. They do not now represent a spent fact in history, but a living principle. It is not the battle of the Boyne in Ireland, but the question of liberty in New York.

Frederick Douglass has been giving his people some good advice. Speaking at a colored meeting in Baltimore, recently, he said: "We hope yet to see the day when the colored mechanics of Baltimore will leave the lanes and alleys. It would be impossible for angels to rear families in those dreadful dens of bad air and bad morals, and to lead lives of intelligence, virtue, and refinement. We must get rid of the somewhat religious idea that we ought to live, like bats and owls, in holes and corners on the earth in order to live in glory hereafter. They must understand their day and generation. Leaving things that are behind, and shaking off the ideas and customs of the old house of bondage, they must adjust themselves to the demands of the new relations into which, by the inevitable laws of human society, they have now been brought.

## LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

BY ATLANTIC CABLE.

### French Affairs.

PARIS, August 3.—The *Siecle* advises Republicans to prepare for the election of Consul General.

Agitation in the province of Algeria continues. Numerous chiefs in the sub division of Lisle have submitted. 230 witnesses are subpœned by the courts martial.

LONDON, August 3.—Count Remusat will probably succeed Favre as Minister of Foreign Affairs.

The conferences of Thiers, Von Beust and Granville is ostensibly on the Eastern question, but is really to be held in relation to the International society.

Dispatch from London.

LONDON, August 3.—A special to the *Times* from Schutzarch reports that the insurrection in Albania has been suppressed.

The British man-of-war *Warrior* and an American frigate are ashore near Leghorn. Small vessels and two Italian war steamers are assisting.

The French Assembly.

PARIS, August 3.—A motion was made by the Left Centre to prolong the powers of Thiers as President of the Republic, to be alone responsible. Four hundred deputies supported the motion.

The French Postoffice is about arranging a money order system with England and America.

The *Official Journal* contains the appointment of Remusat as Minister of Foreign Affairs.

### WASHINGTON CITY.

#### The McGarrahan Business.

WASHINGTON, August 3.—By the appended synopsis of the decision of the Secretary of Interior rendered to-day, in the McGarrahan case, it will be seen that both the claims of McGarrahan and the New Idria Company are rejected, and the property virtually reverts to the United States. This is understood to be the final disposition of the case, unless the New Idria Company may be allowed to go on and perfect proof as to so much of the property claimed, as they may be rightfully entitled to under the existing laws touching mineral lands.

*In re McGarrahan*—This was the application by McGarrahan to the Secretary of the Interior, requesting him to advise the President to direct that the certificate which had been written across the last page of the record of the patent for the Panoche Grande grant, by order of Secretary Cox, to the effect that the patent had never been executed and should be erased and cancelled. The Secretary feels in accordance with the advice of the Assistant Attorney General Smith that the Secretary of the Interior had power to correct the record of a patent at any time before it is a legacy, so as to make it correspond with facts; that the Secretary need not have a personal knowledge of the facts, but might depend upon legal statements and evidence of his trusted subordinates; that the power of correction extended to transactions that occurred prior to his appointment to office, provided, they were then incorrect; that Secretary Cox having acted upon the subject, was *res adjudicata*, and should not be reviewed or reversed even though he should differ with his predecessor, but that to face he did not differ with him that no weight of evidence showed that the Panoche Grande patent was ever executed by the Presidents, and therefore, he was obliged to decline to grant the prayer of McGarrahan.

*In Re New Idria Co.*—The Secretary of the Interior on the advice of the Assistant Attorney-General Smith, hold that the application of this Company for a patent for 480 acres, covering the new Idria quicksilver mines was irregular and defective and should not be granted, for the following reasons: It appears that the survey had been made and approved, that the papers had been forwarded to the Commissioner of the General Land Office at the instigation of the Co., and against express orders of the Interior Department; that the Department having directed that all proceedings be stayed in accordance with a joint resolution that passed the House of Representatives, April 1st, 1867. There was no proof that the notice and diagram were such as are required by law. The application and advertisement disagree in their description of claims that "no conflicting claim exists." There was no proof that members who composed the New Idria Co. or any of those who had assigned to them were citizens of the United States or persons who had declared their intention to become such. The only evidence on this point was the certificate that they were a corporation created under the laws of California, and that was held to be insufficient proof. The application asked for a patent for 480 acres, being a tract 730 rods long and 120 wide. The Secretary held that this claim exceeded the amount that could be granted under section 4 of the act of July 26th, 1866, which limited the grant to any association of persons to not more than 300 feet.

#### Proceedings against the Tammany Thieves.

NEW YORK, Aug. 3.—The *Tribune* says the promised accounts of Controllers are not to be distributed to-day for publication, although they are printed. It is said they are to be kept back till after the first of the meetings called for the purpose of investigation of the alleged swindles and corruptions of Tammany. Two calls for public meetings have been issued, and one is denounced by the other as a fraud, designed to divert attention and to divide the force of those who are disposed to bring public servants to a proper account of their stewardships in the matter of expending the people's money. What is claimed by the *Times* and *Tribune* as a genuine call is published this morning, and contains among other names that of Moses Taylor, Marshall O. Roberts, John Jacob Astor, J. & W. Seligman & Co., August Belmont & Co., Howe & Macy, Fisk & Hatch, Robert Winthrop & Co., Geo. Opdyke & Co., Henry Clews & Co., Blake Bros. & Co., Vermilye & Co., Drexel Morgan & Co., C. W. Blunt, Clark, Dodge & Co., Jay Cooke & Co., Morton, Bliss & Co., John J. Cisco & Son, and other well known parties.

#### Voting Population of New York.

NEW YORK, August 3.—The statement of the voting population of New York city, according to the late census, has been prepared at the census office in Washington. The totals are as follows: Native voters, 97,332; voters of foreign birth, 113,266. Of the latter, 58,447 are Irish; 41,752 German, and 16,077 of other nationalities. The total voting population of the city is 284,607.

The *Times*' Washington special says there is no authoritative announcement of the intention of the President to appoint Charles Francis Adams agent of our Government at the Geneva conference, but those best informed express no doubt that such a decision was made on Tuesday.

#### Origin of the Flea.

As most of our citizens have scratched an acquaintance with this lively little insect, they would like to know something of its origin. The following from the *Science Gossip*, will interest those of an inquiring turn of mind on the subject:

Whence came the fleas? Or, using the language of the Evolutionists, through what chain of being can we trace the flea to its origin, but we will be content with a more romantic legend.

Amongst the Kurds a tradition is preserved that when Noah's ark sprang aleak, by striking a rock in the vicinity of Mount Sindshar, and Noah despaired altogether of safety, the serpent promised to help him out of his mishap if he would engage to feed him on human flesh after the deluge had subsided. Noah pledged himself to do so; and the serpent, coiling himself up, drove his body into the fracture, and stopped the leak. When the pluvious element was appeased, and all were making their way out of the ark, the serpent insisted upon the fulfillment of the pledge he had received; but Noah, by Gabriel's advice, committed the serpent to the flames, and scattering the ashes in the air, there arose out of them lice, flies, lice, bugs, and all such sort of vermin as prey upon the human blood; and after this fashion was Noah's pledge redeemed.

### OREGON.

Eight marriage licenses were issued in Marion county last month.

The Salem mills will begin next week on new wheat. One dollar & bushel is the price paid at the mill.

The Marion County Teachers' Association will hold its next annual session at the University, commencing on the 12th inst., and continuing three days.

A Salem paper says that on the 26th ult. there was sent from the Executive office to the clerk of Multnomah county, duplicate plats and descriptions of 12,962.58,100 acres of swamp lands selected in this county under act of Congress of 1866 and of the Legislature of this State of October, 1870.

From the *Statesman* of Thursday: Mr. William Cunningham, who has lately been traveling on business through several of the counties of this valley, expresses the opinion that the crops will not generally meet the expectations of last spring. Linn county has generally good crops, especially near Lebanon, while in the forks of the Santiam, the yield will be below the average in that locality. The best crops he saw were in Rowell prairie, which always does teachare. The potatoes, he saw were on portions of French prairie. Across the river in Yamhill and Polk counties, the yield will not be equal to that of last year. Late sown grain was too far advanced to be generally advanced by the late cool and showery weather.

The Chief of Police in Kansas City, Missouri, has just received a curious letter from a young girl in Leavenworth, which reads:

"There is a man in your place named Johnny Bascombe, who is in love with me, and who was driven away from our house last week by my father, who drives every one away who comes to court me. I love, for my sake, find out Johnny and give him my picture, which I will come to you, and tell him I will stick to him, father or no father, and if you ever come up here I will come to see you and thank you. Just tell Johnny that his Julia sent him the picture, and he will know it all."

FRIDAY MORNING, AUGUST 4, 1871.

## Democratic Authority on the Tammany Thieves.

The immense frauds now being unearthed in New York, the results of Democratic rule, are producing a general sensation throughout the country, and are leading many to inquire whether the party leaders may not be such infamies as these exposures of fraud and "financial inventions," it may be as well to refer them to an authority which has been high in repute among them.—we mean Jeremy's *Democrat*. We quote:

"There are in the city of New York men high in the Democratic authority—men who, by the use of money liberally expended, expect to control the next National Democratic Convention—who can, if unfolded, with one hand tied behind them, do more in one hour from the people than all the Republicans in the city of Washington could do in twenty-four."

This crowd, the *Democrat* declares, are employing every effort to transfer the seat of power from New York to Washington. We quote again:

"To this end Tweed, Sweeny, Hall, Connolly and Fisk, Belmont and a few other calculating knaves will leave no stone unturned to accomplish their aims. It remains to be seen whether through bribery, demoralization and the buying up of men and there promises of New York, but against the United States in the next four years.

"Isn't this a charming picture, and an authority that Oregon Democrats have great admiration for? The *Democrat* further says of all these men have in a very brief space become millionnaires out of the distributed dividends of rascality, and that 'the democracy of the United States has more to fear from its friends,' who are managers of affairs in the city of New York, than from their enemies, the Republicans.'

Striking indictment to put before the nation to the Democratic party and to recall these thieves at Washington, isn't it?

### Unrumpled Popularity.

On the 23d July Senator Morton of Indiana delivered a speech at the Merchants' Exchange in Cincinnati, in which he expressed the opinion that never in the history of this country, had we such favorable prospects as now. The late treaty with England he believed to be the greatest triumph ever won in the character and power of our nation. This treaty gave us the assurance of the settlement of differences and inaugurated a new era among nations in the settlement of differences without war. He encouraged merchants by presenting a bright business future, and assuring them that he never, in the course of his life, saw more confidence than was now felt."

Says a quiet on the speech was right in his judgment. Never before did the whole country enjoy so great and so general prosperity. Evidences of it are seen on every hand. Turn which way we will, they present themselves continually. They appear in the increase of agricultural production, in the growth of manufacturing industry, in the rapid construction of railways and other great internal improvements, in the extending of settlements to new parts of the country, in the growth of towns and cities and the erection of great and splendid buildings, in the increasing comfort and elegance of all the homes of the country, and in a thousand other ways which must impress every observer. When these facts are rightly considered, how pitiful is the mumping cant so often heard, that the country is on the down grade to perdition, that the poor are growing poorer, and that nothing but a miracle (or the success of the Democratic party) can give us back our prosperity. We have prosperity now, and more of it than we ever before enjoyed, and the fact of this prosperity is the most patent fact of the present time.

The *Bulletin* has been absent from his post for a fortnight, and of course he does not know when he says that there has not appeared in the columns anywhere in this State that the Catholic Archbishop of New York, and the Catholic clergy generally, besought their flocks not to interfere with the Orange procession. Here the *Bulletin* is mistaken. On the 25th July we published the utterances of Archbishop on the subject, the very same which the editor of the *Bulletin* has inserted in his paper since his return. In matters of this kind it is always our aim to avoid partiality.

Very many of the heavy capitalists of New York are joining in the movement to break the Tammany thieves to an account. There is reason to hope that this organization, which stands at the head of the Democratic party of the United States and is trying to get into power at the national capital, will be broken up and its members punished as they deserve. The power of the Democratic party of the United States is founded upon the corruptions and robberies of this thieving ring. Suppress this ring, and New York becomes a Republican State, and Democratic hopes for 1872 are no more.

Last January when the German Peace Jubilee was held in San Francisco, the *Examiner* of that city, the leading Democratic organ of this coast, said that the demonstration was a celebration of the triumph of imperial despotism over republicanism. "Let people," it added, "who believe in democratic institutions keep dark to-night, for imperialism will be abroad." The *Examiner* is now begging hard for German votes for the Democratic ticket, but with very poor success.

We hope we are as little disposed as our neighbor of the *Bulletin* to continue a controversy over the questions which have been discussed in connection with the New York riot, and are willingly respond to its expression, "Let us have peace." Having said upon the subjects of discussion all we felt called on to say, we are ready to drop the whole matter, and to reciprocate the friendly spirit which our neighbor evinces in his articles of yesterday.

A letter from Berlin states that the German Atlantic Cable will soon be laid. The company is organized with a capital of 1,000,000 thalers, (about $750,000 gold), and will commence operations in September. The initial point is Emden, on the North Sea. The programme is to be carried out as follows: To commence by laying a cable from Emden to England, and to hire one of the English Atlantics cables to connect with until the laying of their own is completed.

Testimony taken by the Ku Klux Committee in the Southern States shows a terrible state of affairs,—murders, whipping and intimidation by wholesale. At many points the Committee were beset by large numbers of victims of outrage.

## PACIFIC COAST DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

### CALIFORNIA.

From San Francisco.

SAN FRANCISCO, August 2.—The Democratic Convention nominated Sam Austin, Fred Woodworth, C. Pennie, Michael Cronin, Fifth street, when one Talifierro, a water and would have been but it not been for a Chinaman at a near by, who jumped in and rescued the boy. Sussex White was taken in custody this evening, charged with stealing $60 from a countryman who called upon her and was induced to drink a glass of wine.

The Democratic Municipal Convention met again this evening, when P. J. White was withdrawn from the contest for Sheriff. A ballot was then taken and George Green receiving sixty-four votes, was declared the nominee for Sheriff. Mr. Green is a pioneer, a butcher by occupation and popular. Maj. J. D. Goggles, who was in the war during the rebellion in the Wisconsin regiment, and who for three years has been chief Deputy Clerk, received the nomination for County Clerk, and R. Hines received the nomination for Recorder.

The mitrailleuse was exhibited to-day to a number of gentlemen, who were greatly pleased.

The Democratic Judicial Convention this evening, nominated all the Justices of Peace at present in office, and then adjourned until Monday night next, when the platform of the party will be put forth.

Jas. Brequer, German, aged 30, baker at No. 8 Kearney street, hung himself this afternoon at 34 Everett street. No cause is known.

A fire is raging at the corner of Third and Brannan streets.

The Republican Convention this evening nominated Geo. Colton, formerly Controller, T. G. Garrott and Fenby, of San Mateo, for Senators and then adjourned till Saturday evening.

FOURTH STREET AND THE RAILROAD.—For the last few days there has been quite a stir among the holders of property on Fourth street, occasioning the proposed change of grades as asked for by the Oregon Central Railroad Co. An impression seems to have become general among them that the change would involve considerable expense; that much of the property along the line would be damaged in consequence of being so far below the grade; and that, under the law as served by the Council, the property-holders will be called upon to pay for the "improvement." The consequence was that several influential Portlanders who are and always have been friendly to the railroad enterprise, are engaged in the circulation of remonstrances against the proposed change of grade; and they obtained the names of a large proportion of the property owners on the street. Last Wednesday evening, however, the Railroad Co. sent to the Council a table of grades they wanted, with a proposition that the Company would pay all the cost of the change. We are under the impression that had this proposition been submitted at first, there would have been no formidable [illegible] against the change; and that now it is made, the greater part of those who signed, will withdraw their names. The table of grades, when published, will show that the present grade will not be disturbed except in front of [illegible] as toward the upper end of the city [illegible] to the owners of blocks where the [illegible] is to be made, by fill, will continue to be [illegible] as proposed as follows: At G and F streets the [illegible] to raise the grade a little more than one foot and a half. At E and D it will be about that point to Jefferson, the fill will be about inch, except at the intersection of Washington, where there will be a cut of about two feet. At Columbia street, three feet; at Clay one foot and a half; at Market street, three feet nine inches cut. At Mill street, two feet nine inches cut. At Montgomery one foot nine inches cut. At Harrison, two and a half feet cut. At Hall, nine inches cut. At College, present grade. At Grant, one inch cut. Grant, a little less than four feet cut. Sherman, two and a half feet cut. At Caruthers street, a little less than five feet cut. The table will be published in full in the present height of grades above the base, the proposed height and the difference whether above or below the present grades.

PRINTED LIST.—The list of premiums for the Oregon State Fair, to be held at Salem, September, 1871, has been published, and we have received a copy. We have not had time to examine it with any degree of care, but intend to do so before long. It is reported that the aggregate amount of premiums offered, is [illegible] less than was paid last year. At the January meeting of the Board of Managers, the [illegible] paid, and [illegible] Clark, H. H. Hewitt, [illegible] of Salem, [illegible] Major Jacob Kamm, [illegible] Mr. Hawes, for the Vale of [illegible] Hazelton, expenditure of the last fair, [illegible] premiums, amounted to $3,812 [illegible] $3,813 66 was paid for [illegible] and [illegible] and premiums. On the 11th of [illegible] ty, being in session [illegible] ears and sundries, [illegible] hundred dollars per [illegible] for three years, and states that last year [illegible] put up and shipped three hundred [illegible] the profits upon which suited about [illegible] the season. The previous year, [illegible] inexperience, the company [illegible] hundreds."

MASONIC.—Grand Lodge Proceedings [illegible] proceedings of the last annual [illegible] communications of the Oregon Grand Lodge, A. F. and A. M., together with the oration delivered in Salem by Hon. W. D. Hare, G. M., and [illegible] tion by Hon. Linwood Evans, P. G. M., [illegible] pia, delivered upon the laying of the corner-stone of the Temple being now erected in this city, [illegible] shortly be published in pamphlet form. [illegible] matter is now in hand at the office of the Bachelder, in this city.

INDIAN COUNCIL.—Superintendent A. [illegible] ohem arrived in this city, yesterday, from Salem, on route to Umatilla Reservation to hold a council with the Indians, with a view to purchase the lands of the latter. The Commissioner, who consists of Superintendent Meacham, Agent N. A. Cornoyer, and John S. White, [illegible] Brunot, Commissioner of Indian Affairs, is present to counsel and assist. The Council will be open at the Reservation next Monday or Tuesday.

ORO FINO THEATER.—We notice that other than Juvenile Troupe are passengers for Portland by the steamer *Constantine*. They will probably arrive about Sunday and the troupe may be expected to open at Oro Fino Theater about the middle of next week.

OUR GRATITUDE.—Hot weather has come again, we are again constrained to express our gratitude, to Kalloh, the ice man, who supplies us to-day at our office, daily, a liberal supply of the universal cooler.

FOURTH STREET AND THE RAILROAD.—For the last few days there has been quite a stir among the holders of property on Fourth street, concerning the proposed change of grades as asked for by the Oregon Central Railroad Co. An impression seems to have become general among them that the change would involve considerable expense; that much of the property along the street would be damaged in consequence of being left far below the grade; and that, under the notice, as served by the Council, the property-holders be called upon to pay for the "improvement." The consequence was that several influential gentlemen who are and always have been friends of the railroad enterprise, are engaged in the circulation of remonstrances against the proposed change of grade; and they obtained the names of a large proportion of the property owners on the street. Last Wednesday evening, however, the Railroad Co. sent to the Council a table of the grades they wanted, with a proposition that the Company would pay all the cost of the change. We are under the impression that had this proposition been submitted at first, there would have been no formidable remonstrance against the change; and that now it is made, the greater part of those who signed, will withdraw their signatures. The table of grades, when published, will show that the present grade will not be materially disturbed except in front of a few blocks toward the upper end of the city. We presume the owners of blocks where the new grade is to be made by fill, will continue to protest. We have examined the table of grades at each street intersection and find that changes are proposed as follows: At G and F streets, the company desires to raise the grade a little less than one foot and a half. At E street and from that point to Jefferson, the fill will be about one inch, except at the intersection of Washington, where there will be a cut of about two inches. At Columbia street, three feet, nine inches fill. At Clay street, two feet six inches fill. Market street, three feet nine inches cut. Mill street one foot cut. Montgomery, one foot nine inches fill. Harrison, two and a half feet cut. Hall, six inches cut. College, present grade. Lincoln, one inch cut. Grant, a little less than four inches cut. Sherman, two and a half feet cut. And at Caruthers street, a little less than three feet cut. The table will be published showing the present height of grades above the base, the proposed height and the difference whether above or below the present grades.

PREMIUM LIST.—The list of premiums for the Oregon State Fair, to be held at Salem, October, 1871, has been published, and we have received a copy. We have not had time to examine it with a view to learning the aggregate amount of premiums offered, but should judge that it exceeds the sum paid last year. At the January (1871) session of the Board of Managers, the list was revised and numerous amendments were adopted, some articles being struck out, while some were added for which premiums had not before been offered. The Treasurer's and Secretary's reports, which are published with the list, show that the Society's financial condition is not exactly plethoric. Messrs. Daniel Clark, J. H. Moores, and E. M. Waite, all of Salem, constitute the Executive Committee. Major Joseph Magoon is the chief Marshal for the Fair of 1871, and Mr. Alfred Loelling is chief Marshal of the Pavilion. The expenditures of the last Fair, exclusive of premiums, amounted to $6,733 35, of which $5,141 88 was paid for improvements of Pavilion and grounds. On the 17th of January the Society, being in annual session, fixed the pay of officers and employees, as follows: Secretary, four hundred dollars per annum; clerks, four dollars per diem; Chief Marshal, eight dollars per diem; assistant marshals (mounted), six dollars; assistant marshals (on foot), four dollars; Treasurer, one half of 1 per cent. for receiving and disbursing; ticket vendors, five dollars per diem; entrance gate keeper, four dollars per diem; R. R. gate keeper, five dollars per diem; east gate, five per diem; north gate, five dollars per diem; superintendents, per diem for actual service, two dollars; marshals in pavilion, two dollars, and fifty cents per diem; hay tender, five dollars per diem. Board of Managers, mileage to and from annual and called meetings, and two dollars per day. On the 12th, a committee of three was appointed to solicit money for, in the trials of speed, trotting and running; said premiums to be not less than $1,000 each.

PASSENGERS FOR OREGON.—The following is the list of passengers per steamer *Constantine* which sailed for this port from San Francisco, on Wednesday: J Wamold, W Garty, C E Stuart and 2 children, Mrs Tuck, Miss Tuck, Mrs Kitzman, Masters Marie and Joseph Dobin, H G Cook, J C McChan, Van Patton, E Constable, Mr Korman, Geo Turrell and wife and 3 children, Louis Ramick, Pamferant, Joseph Coleman, C E Blummer, Leopold Jacoby, Captain Wait, C A McCarit and wife, Miss Glenny, G Hooper, J D Baily, Mrs Page, Miss L Dodge, Mrs R Boat, Geo A Kirby, Edward Acres, S P Farry, Dani Tricker, Martin Spillman, Mrs Hackett, C F Wightman and wife, J H Curse, Peter O'Laughlin and wife, W F Tuthill, Jas Dusters, Thos Cioth, John Pape, W Michaelson, Richd Petit, George Medsgar, Miss Link, Philip Nelson, Mrs Goodwin, Thos Owens, Dave Milnor, S Krolik, John Egan, Jas Pollard, George Rolfor, Miss Soltt, Miss Lucetta Brown, Mrs Shoon and 5 children, Mrs R Burlingame, Miss J Hayden, Miss L Barker, Noah A Histel, Henry Rosenfield, Babi Bettman, Mrs Dingan and daughter, Mrs Nathan and 5 children, Mr Dudley, Mr. Crawford and family, Chandler Crawford, S Harker, T H Gray, L Brownson, wife and child, W D O'Conner, Prof Jas Lecounte, S P Hitch, Levi Wing and wife and daughter, Jos P Buckley, George Turnbull, G H Turnbull, Louis Barland, S B Caldwell, F A Smith, M Dunn, George Smith, Jas Moore, and ten Chinamen.

THE WOMEN, TO NIGHT.—Mrs. Laura De Force Gordon will lecture this evening at Oro Fino Theater on "Our Next Great Political Problem," by which is meant, we suppose, the problem whether women shall be admitted to the right to vote, hold office, carry on business, be known in law as an individual (all by herself) and otherwise to treat and be treated exactly as men do and are done unto. Mrs. Gordon is in some sort a Chief among the women assistants of man's Lord-and-master position in the human family, and as she will be to-night backed and supported by the combined forces—male and female—of the woman suffragists and the woman's rightists in general, it will undoubtedly be quite worth the while of even the don't-care people to go and hear her. The dispatches informed us the other day that she is the candidate of the woman suffragists of San Joaquin county, California, for State Senator. We presume our folks will be naturally curious to see and hear one who has thus been named as a political leader, in our neighbor State.

COLUMBIA RIVER FISHERIES.—The Kalama *Beacon* of August 1st says: "No one, unless familiar with the business, has the least idea of the extent to which the salmon fisheries are carried on in the vicinity. We are informed by one who is interested in fishery, that within thirty miles of this place, more than five hundred men are employed in various departments of the enterprise. Our informant has been in the business for three years, and states that last year his firm put up and shipped three hundred thousand cans, the profits upon which netted about $12,000 for the season. The previous year, principally from inexperience, the company sunk $8,000 in the business."

MASONIC GRAND LODGE PROCEEDINGS.—The proceedings of the last annual and special communications of the Oregon Grand Lodge, A. F. and A. M., together with the oration delivered at Salem by Hon. W. D. Hare, G. M., and the oration by Hon. Elwood Evans, P. G. M., of Olympia, delivered upon the laying of the corner stone of the Temple being now erected in this city, will shortly be published in pamphlet form. The matter is now in hand at the office of Himes & Bagbelder, in this city.

INDIAN COUNCIL.—Superintendent A. B. Meacham arrived in this city, yesterday, from Salem, en route to Umatilla Reservation to hold a Council with the Indians, with a view to purchase the lands of the latter. The Commission to treat with consists of Superintendent Meacham, Agent N. A. Conoyer, and John S. White. Mr. F. R. Brunot, Commissioner of Indian Affairs, will be present to counsel and assist. The Council will be open at the Reservation next Monday, the 9th inst.

ORO FINO THEATER.—We notice that the Nathan Juvenile Troupe are passengers for this city by the steamer *Constantine*. They will probably arrive about Sunday and the troupe may be expected to open at Oro Fino Theater about the middle of next week.

OUR GRATITUDE.—Hot weather having set in again, we are again constrained to express our gratitude to Kalloch, the ice man, who continues to leave at our office, daily, a liberal "chunk" of the universal cooler.

## PERSONAL.

Among the late important arrivals at this city is Mr. Geo. Nebeker of Covington, Indiana, who is a banker and the President of two railroads. He is stopping at the St. Charles Hotel.

We are informed that B. Goldsmith, late Mayor of this city, has purchased Gov. Salomon's real estate at Kalama.

Frank Miller, formerly of Portland, and sent from Idaho city a year ago to the Utica (N. Y.) Insane Asylum, writes back, July 6th, that he is cured and sane again.

## DEEDS FILED FOR RECORD.

Wednesday, August 2, 1871.

Alfred Goodnough to Adolph Nicolai, lots 1 and 2, block 72, Holladay's Addition—$1,000.

## AMUSEMENTS.

THE NATHAN JUVENILE TROUPE.—Mr. B. M. Nathan announces the opening of Oro Fino Theater next Wednesday evening. The bill for that evening will consist of Bouccicault's Hibernian drama of Andy Blake, a musical and terpsichorean melange and the burlesque of Paddy in India. In both plays, La Petite Marion will sustain the leading male characters.

PANORAMIC EXHIBITION.—Barker's Panoramas, consisting of Puget Sound and Columbia river scenery, with a view of Portland, will be exhibited here in a few days. The canvass is daily expected to arrive.

## BUSINESS NOTICES.

D. L. Stone has a large lot of 18 carrat gold Howard Elgin watches, also a fine lot of the latest styles of 14 carrat gold chains for ladies and gentlemen, and an elegant assortment sets of jewelry. 18 carrats fine, solid gold, which will be sold at very small profits.

RAILROAD CONTRACTS TO BE LET.—The N. P. R. R. Co. advertises for sealed proposals for doing the clearing and grading of the railroad track for forty miles from Tenile river, northward. Proposals will be received till the 21st inst. for sub-divisions of not less than five miles each. All necessary information about the work to be done, can be obtained at the office of the company at Kalama.

SALE OF A MEAT MARKET.—Messrs. John B. Hailey & Co. have sold their "Swan Island Market" to Messrs. Spaulding Bros., who are long and favorably known as market men. They will conduct the place with that carefulness to please their customers which has heretofore distinguished them.

STEAMERS TO SAIL.—The steamship *John L. Stephens*, now en route for this port, is advertised to sail for San Francisco on Thursday, the 10th inst.

The steamship *Queen Telfair* is coming here to go upon the route to Victoria and Puget Sound, and is advertised to leave here on Thursday, the 10th inst.

MASONIC.—W. D. Hare, Grand Master of the fraternity, goes up to the Dalles to-day upon an official visitation to the lodge at that place.

Mr. T. McF. Patton starts this morning for Pendleton, Umatilla county, to institute Pendleton Lodge No. 52, A. F. and A. M., for which a charter was granted at the last communication of the Grand Lodge.

For Throat diseases and affections of the chest, BROWN'S BRONCHIAL TROCHES, or Cough Lozenges are of great value. In Coughs, Irritation of the Throat caused by cold, or unusual exertion of the vocal organs, in speaking in public or singing, they produce the most beneficial results. The Troches have proved their efficacy.

Science Advances.

As soon as an article purporting to be of utility has been tested, and its merits endorsed by public opinion unprincipled parties endeavor to replenish their depleted purses by counterfeiting, and substituting a spurious for the genuine article. Some time since, mercury, in the disguise of pills, powders, etc., was given for all diseases of the stomach and liver, while quinine was freely administered for the chills. At length Hostetter's Stomach Bitters made its advent, and an entire new system of healing was inaugurated. The beneficial effects of this valuable preparation were at once acknowledged, and mineral poisons suffered to sink into that obscurity to which an enlightened age has consigned them. There have been many spurious bitters palmed upon the community, which, after trial, have been found perfectly worthless, while Hostetter's has proved a blessing to thousands, who owe to it their restoration to health.

For many years we have watched the steady progress of Hostetter's Stomach Bitters in public estimation, and its beneficent effects as a cure for all complaints arising from the stomach of a morbid nature, and we are free to say that it can be relied upon as a certain relief and remedy. Its proprietors have made the above preparation, after years of careful study and sifting, and are now reaping the reward claimed by this valuable specific, and which they so richly merit. It is the only preparation of the kind that is reliable in all cases, and it, therefore demands the attention of the afflicted.

Adopted by all Housekeepers, on its own merits, as the Cheapest and most Perfect household article yet devised.

Advantages over all others—CHEAPNESS! SIMPLICITY! DURABILITY! Requires no labor to adjust it for Fluting or Ruffling, as is the case with expensive crank machines; the iron is heated in the ordinary manner as for plain smoothing. When desiring to FLUTE or RUFFLE, draw back the Latch and it is ready for its work; this simple movement is all that is required. Its entire simplicity is one of its many merits.

It will not injure the finest fabric. It will not rust or destroy your clothes. It is a great savor of Time and Money. It is the only Iron with a "Rolling Motion." Its Fluting surfaces are of Polished Brass. No horse can afford to be without one.

MYERS' COMBINED FLUTING AND SMOOTHING FLAT-IRONS have earned for themselves a popularity which has never been attained by ANY Fluting Machine. People go into ecstacies over the results accomplished by our Irons, and the longer they are used the more highly do they value them, and no wonder, when we consider that our Combined Fluting and Smoothing Flat-Irons, which are no trouble whatever to use, and which do plain ironing as well as Fluting and Ruffling, costs only the very small sum of $2 75 each.

These Irons are for sale only by our Canvassing Agents.

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the foot of F street, Couch's Addition, to the foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE!

Aside from all the Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses, and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses, also, Street improvements, under contract, by grading, and planking Holladay Avenue to entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and wife to Geo. W. Weidler.

☞ Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. FERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

### The Ruler of New York.

George Alfred Townsend thus writes of the der of New York, the chief man of the head rganization of the Democratic party:

I have known Tweed for very many years, e is a man without shame, and very nearly without fear. A newspaper attack will puzle Nick Connolly think that a vigilance committee is going to hang him straightway, and e will cringe and writhe in pitable terror; for is really nothing but a "Fence," like Dickn's Fagan, and when he dies, even if he dies his bed, he will go through the same conortions. Sweeny feel a newspaper attack like a man of education and worldly wisdom, who has lived long enough to feel that the ood opinion of the world is the highest felicity; but, unwilling to give up his bad dower, he can only sit and mope and have a mental pell of sickness every time he is admonished hat no one respects him. But Bill Tweed, r "Tweedy," as they call him, is perfectly allous; nothing impresses him; he has fits of ood nature, spells of licentiousness, a good eal of gluttony, and most of the low tastes well kept in check; but for all, he is a powerful business man, always at work, never scared out, never thoughtful, turning from norn till midnight, doing a great part of this work himself, a fair judge of agents, a big brutal nature, equal to the most brutal situation and acquainted with the two parts which rives a mill or ring—Stewart's dry-goods ouse—confidence, economy, energy, enterrise. He has one of big build, brown complexion, square head, square shoulders, big mbs and feet, grey eyes, and a quick, prompt anner. He is not a person of many accomlishments in him, it is not eye to eye or and see him now and say, "Have a basket f you exactly as you are, and I want the oints." Tweed would reply: "I would give hem, my son, to you, if it could be done in a ay, but there are things and things just ow on my hands. I am on the make; you nt that down sure. I keep my eyes wide pen for whatever comes along; stick my arm own as far as it will go, and pull my hand ut as full as I can. Stick to my friends, hat's all. If they do any good, you go nd print it." The analysis of this man akes well with the lowest class whom he ostensibly commands. It fills Connolly with terror and admiration; and it makes the more logical and meditative Sweeny acknowledge Tweed's superior abilities. Tweed used to be chairman for, with business habits, and getting into politics out of a naturally dashing, ray temperament, plus a little larceny, he served to make a rude sort of speech, and has gone n from grade to grade until he rules New ork.

### Manufactures Building.

The city of Pittsburg, with its suburbs, has population of 200,000. Allegheny city, one of its suburbs, having not less than 50, 00; these two cities and several contiguous roughs are counted, for business purposes, one place.

The city has been built up in great part through its manufacturing interests. exchange enumerates some of their industries:

The most wonderful feature of Pittsburg is its vast congregation of manufactories, hich may be briefly summed up. There are ll about 2500 of various kinds in this city. ere shall we find iron and steel mills, ith a capacity of 340,000 tons consumption f metal, having 662 puddling furnaces, 180 eating furnaces and 583 spike machines. ere are also 60 iron foundries, and the toconsumption of pig metal is equal to 400,- 0 tons annually, bolo one-fourth of all that produced in the United States, which, in 68, was 1,603,600 tons. Of the 400,000 ns, 60,000 are made in the furnaces at ttsburg from the ores of Lake Superior and issouri, brought to Pittsburg for smelting. oke for the same is brought from Pennsylvania, hio, Kentucky and Tennessee.

The city is skirted with collieries, the number of which is about 150, from which over 7,000,000 bushels of coal are annually taken, returning when sold $12,000,000. Besides these there are six cotton mills, using 0,000 bales annually; seven petroleum refineries, with a running capacity of 31,- 0 barrels a week; two large copper rolling mills d one copper smelting works; thirty-five ass and planing mills, twenty-five white-lead factories, twenty brass andles, eighteen cordage and wagon factories, and sundry other establishments. The lue of the trade and manufactures of Pittsg last year was estimated at $178,000,000.

The continually ascending smoke from its tire to its circumference is all that exists to ve the inviting appearance of the city, ose situation can scarcely be surpassed by y other city in the country. Built principly in the valley of the rivers, it is surrounded by high rolling grounds, from 200 to 400 et in height. Upon these heights in all diections are built, above the smoke of the rkshops, the finer residences of its citizens. matter of consuming smoke is one of the oblems of the day, the smoke being not y an inconvenience, but an actual loss of per cent. of fuel employed, and to lsburg especially its solution possesses a ighty interest.

### Concerning Lobsters.

Concerning Lobsters.—Three wholesale ms are lobsters in Boston, boil, set this and that average about 3,000 a day, and ir firm keeps ten vessels constantly employ- in bringing them to market. The demand risk from all sections of the country, and ly difficulty experienced is in getting ough enough. The lobsters run very , not averaging two pounds each. They brought mostly from the coast of Maine, smacks, which are fitted up with wells, though considerable quantities come the South Shore, Plymouth, Duxbury, Prices do not vary much from last season through, with a scarcity they are tending

A country merchant who wanted two tairons, several years ago, ordered them firm of hardware merchants in the city. first wrote this order: "Please send me use send me two tailor's geese." Upon ction, he did, and the geese also, for fear should receive five geese. He thought the matter till he was very much worand at last, in a moment of desperation, ized a pen and wrote the following: h was duly posted: "Messrs. So-and-so: e send me one tailor's goose, and, hang nd the brother."

## FINANCE AND COMMERCE.

THURSDAY Evening, August 3, 1871.

Gold in New York, 112¼@ currency, buying, 80 @ selling, 00; exchange on San Francisco, coin, par.; currency, ½ per cent. prem.; on New York ½ per cent. prem. Telegraphic transfers on San Francisco ½ per cent. prem.; on New York 1½@1¾ per cent.

Wells, Fargo & Co. shipped per *Orizimba* last evening $30,000 in treasure. Their receipts for the past week from the country, $35,000.

Steamer *Constantine* sailed from San Francisco for this city to-day.

Bark *Neal* arrived last night. She takes return cargo for San Francisco in at Connemylle.

A. B. Richardson & Co. hold a large sale of tobacco and Groceries August 9, 1871.

We have seen a souvenir of the San Francisco papers, in making the probable foreign shipments from that port of Wheat, they put Oregon down as contributing quite heavily. We are inclined to the opinion that they are counting without due consideration, as parties who made direct shipments to Europe are so pleased with their venture that they intend shipping fully half as much more if not double, provided our farmers do not hold for too high prices, thus precluding the possibility of purchasing Wheat for shipment, and, of course, that will close out the San Francisco market also. The shipment of Wheat to San Francisco from the 1st of January, 1871, amounts to 30,450 sacks.

The price of Wheat in Liverpool is 11s 0d, being 1d higher than ruled last year at this time. The crops of Wheat in Germany and Northern France are not good, but those of Southern France, Italy, Spain, Danube Provinces and Russia, are reported large. The supposition that the war would largely diminish the production of France and Germany, caused grain-producing countries to make greater exertion to meet the expected demand, and, consequently, the yield is expected to be very large. Nothing is as yet definitely settled as to the crops in England, and it will be fully four weeks yet before estimates can be made with any degree of certainty as to the yield there. In consequence of this uncertainty, shippers in San Francisco are not prepared to buy heavily at present prices owing to that market, although many vessels await chartering which, with the large number to arrive will, if not already, lower chartering rates.

The volume of business transacted the week under review, is in excess of the two previous weeks. One of the principal causes of improvement in business the past week is, that merchants east of the mountains, and particularly from Idaho, have been extensive purchasers. Complaints are made of remittances coming in slowly, but we should think it natural that merchants in agricultural counties are unable to make collections, even if they thought of it, owing to farmers now using all surplus means, if possessed any, and if not then borrowed money, with which to pay hired help. The scarcity of coin operates against us, though we are beginning to doubt if the cry is real, for we are inclining to the belief more coin is, or can be made, available than thought. We have no change to note in the prices of candles, hardware, canned goods, tobaccos, liquors, boots and shoes, or of any other merchantable commodity.

### Merchandise Reports.

BREAD—Owing to decline in Flour, our bakers have reduced rates ½ cent per pound. The following are the dealer rates: Superior, 7c.; Picnic, 6c.; Hard Wheat, 4½c.; Pilot, 6c.; Sweet, 10c.; Graham, 6c.; Fancy Loaf, 10c.; Rye, 10c.; The bakeries sell all they can make.

FLOUR—There has been a more active local demand to-day. We quote sales of 250 bbls extra at $6 for city and $5 50 for country. Our receipts from the Willamette on the 1st was 600 ⅓ sks and yesterday 900 ⅔ sks. The 900 sks was shipped to San Francisco per *Orizimba*.

WHEAT—In the absence of stocks on hand, market quiet. We are informed that the Salem flouring mill will not be more than half a crop to handle this year, but that the yield of wild Hay will be greater than any previous year. Many farmers in that section of the country refuse to sell at present prices, holding for $20 to $25 per ton.

POTATOES—We note sale of 125 sks California at 1¼c per pound.

CORN MEAL—400 lbs sold at 1¾c. We quote feed meal at 3½@3½c per pound. Walla Walla is held at 3½c.

ONIONS—Sales of 50 sks at 1½c.

BARLEY—HIGH GRADE—Sales of 200 sks at 2½c per lb. Sales of 100 sks at 2c. Receipts from Walla Walla yesterday were 300 sks of Bran and Middlings. Middlings range from $35 to $42 per ton.

HIDES—Demand good at 10½@12c; salted, 7@8c; green salted, 6@7c.

TALLOW—Sales to-day of 6,000 lbs choice at 5c; fair to choice, 4½c.

WOOL—Is about all in, we are informed as yet, to leave the total clips we quote prices as 32@34c per lb.

FRUITS—The market is well supplied with all the principles of fresh fruits, California production. A few sales of dried apples have been made at 7½@8c per lb in half bbls.

DAIRY PRODUCT—Fresh butter, 20@25c. Eggs, 20 @30c per doz. Cheese, 14@18c.

PROVISIONS—We note an advance in bacon of ½c per pound, now held at 13½c. We note some sales at last figure. Hams, 16c per pound, and dull. Shoulders, 9@10c. Lard, in kegs and tins, 12@14c.

FRESH MEATS—Beef, 7@8c. Pork, 6 foot, 6@6½c; dressed, 6½@7c. Sheep, 2c 75@4 per head.

AGRICULTURAL IMPLEMENTS—Season about over, consequently limited demand, with small stocks on hand.

COFFEE—Market firmer with small stocks on hand; we note sales at 26@27c per pound.

SUGAR—The rates of the local manufacturers, R. Irving & Co., are, C. C., warranted pure, 7c; pale, 7c; superior, 7½c; dedurative, 8c. Sales for the week, 572 boxes at 8c.
